

## Submission A: Investigating

A copy of this doc is available in editable Word format on ManageBac. Complete it carefully – it will be read by your supervisor and used to see whether you are addressing this criterion. The questions are related directly to criterion A (Investigating) and will need to be answered in your written report later so keep a copy in your process journal.

<b>Name</b>	Samuel Engel
<b>Project title</b>	To raise awareness about one of the UN goals for sustainable development by building a website.

Goal
<i>My goal is to design and create a website in order to raise awareness about one of the UN sustainable development goals for everybody researching about it by making it as visible as possible.</i>
<i>My goal is highly challenging because it requires me to combine the research I am going to do about various techniques of search engine optimization and my current knowledge and skills to build and design a website. I also have to research about one of the UN goals for sustainable development and create a context of my website in order to raise awareness in the most efficient manner.</i>
<i>I chose this topic/goal because I have been interested in this topic for some time now and I've done some researched about it already. I also chose this topic and goal, because personal project gave me the opportunity to use skills I have been developing and actually make something meaningful from it.</i>
<i>Here's what I already know about this topic/goal before I even start the project. I have basic knowledge of how the search engines works and there are a lot of things that I read that could be linked to the general topic of sustainability.</i>
<i>I will probably have to use knowledge and skills from these subject areas: IT Design, History, Humanities</i>

Global context
<p><i>My chosen global context is...</i></p> <div style="display: flex; justify-content: space-between;"> <div> <input type="checkbox"/> Identities &amp; relationships  <input type="checkbox"/> Orientation in time &amp; space  <input type="checkbox"/> Personal &amp; cultural expression         </div> <div> <input checked="" type="checkbox"/> Scientific &amp; technical innovation  <input type="checkbox"/> Globalization &amp; sustainability  <input type="checkbox"/> Fairness &amp; development         </div> </div>
<div style="display: flex;"> <div style="flex: 1;"> <p><i>Each global context is broken into different areas (see <b>Appendix 1</b>). Within my global context, I'll be exploring the following area(s):</i></p> <p><i>The impact of scientific and technological advances on communities and Environments.</i></p> </div> <div style="flex: 1;"> <p><i>Explain why you have chosen this global context and these focus points. Justify the relevance of your inquiry.</i></p> <p><i>I have chosen this global context because I think it is the most relevant one to my topic and goal. The main purpose of my PP is to research and apply principles of innovating ways in which a website can be made visible and therefore improving the way in which awareness can be raised.</i></p> </div> </div>

Product/Outcome
<i>The product/outcome of my project will be a website raising awareness about one UN goals for sustainable development</i>
<i>The product or outcome of my project acts as evidence of meeting my goal/global context because the function of website I am going to create is to raise awareness. That can be measured in several various ways like the website's traffic etc.</i>

Process journal / Research	
----------------------------	--

<i>Your process journal is where you'll keep your plans, research, reflections etc. Explain how you plan to...</i>	
--	--

<i>...keep organized:</i>	
---------------------------	--

	<b>To keep myself organized I plan to keep all things connected with process journal together and have uniform structure for all my process journal entries.</b>
--	--

<i>...link all entries to key ATLs:</i> <i>(see <b>Appendix 3</b>):</i>	
--	--

	<b>I am going to clearly state which ATL skill all entries demonstrate.</b>
--	---

<i>...develop your research skills:</i> <i>(what skills will I need to develop/learn)</i>	
--	--

	<b>I plan to evaluate and select sources based on how appropriate they are for my topic.</b> <b>I plan to keep an organized bibliography according to the MLA format.</b> <b>I am going to try to use variety of source types to consider different perspectives.</b>
